

FALL HOME PERFORMANCE

CHECKLIST

SAFETY-CHECK YOUR CHIMNEY

Chimney fires are responsible for millions of dollars in household damage every year, and there are thousands each year in the US alone.

- ☐ *SURVEY ANY STRUCTURAL DAMAGE*
- ☐ *FIND ANYTHING BLOCKING THE CHIMNEY*
- ☐ *MAKE SURE THE DAMPER IS WORKING*

INSULATE YOUR HOME

Home insulation keeps valuable heat in all fall and winter, helping you and your family feel more comfortable.

- ☐ *SCHEDULE AN ENERGY AUDIT TO LOCATE PROBLEM AREAS*
- ☐ *HAVE NEW INSULATION INSTALLED IN KEY AREAS LIKE THE ATTIC AND WALLS*

INSPECT YOUR GUTTERS

Regular gutter cleaning helps prevent exterior damage, keeps your basement dry and saves you from making expensive home repairs.

- ☐ *PROTECT YOUR GUTTERS WITH MESH*
- ☐ *CLEAN YOUR GUTTERS, IDEALLY IN LATE SUMMER*

FIND & SEAL AIR LEAKS

Locating and eliminating air leaks reduces drafts and prevents heated air from escaping your home when it's cold out.

- ☐ *SCHEDULE AN ENERGY AUDIT TO PINPOINT AIR LEAKS*
- ☐ *HAVE A PROFESSIONAL SEAL AIR LEAKS WITH SPRAY FOAM*

UPDATE YOUR CRAWLSPACE

Making a few upgrades now will control moisture and enhance comfort throughout the entire home.

- ☐ *INSPECT THE DRAINAGE SYSTEM*
- ☐ *AIR SEAL AND INSULATE WHERE NEEDED*
- ☐ *SCHEDULE CRAWLSPACE ENCAPSULATION FOR OPTIMUM MOISTURE CONTROL*
